

# Random Antiterrorism Measure Program Sign Temporary Sign Kit

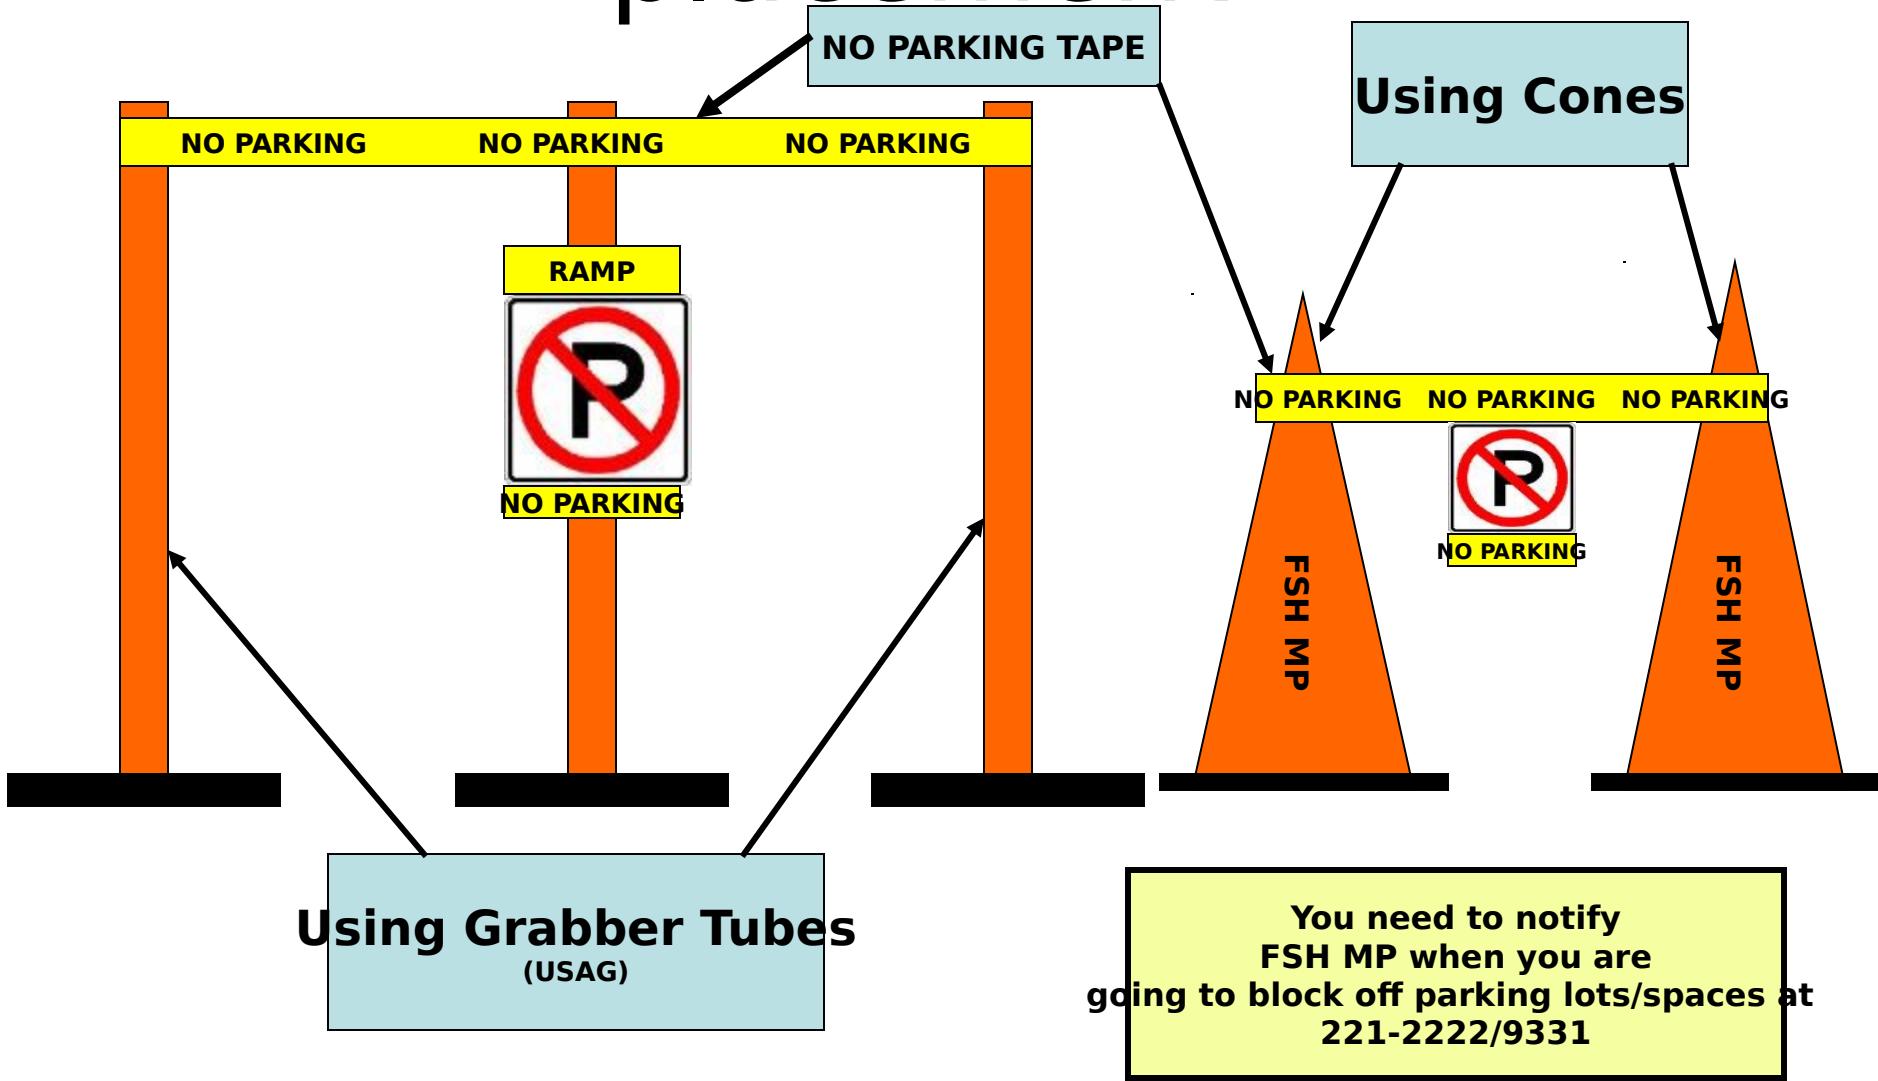

## Instructions

We have made up several signs for your use while conducting RAM Measures.

- It is recommended that you print them in Color for effect.
- Use standard 8 X 10 card stock paper.
- Seal them in plastic using a heat sealer for reuse.
- **You can change them as you need them to work for your building.** These signs are on Power Point and once you save them to your RAM Program file they can be changed to fit your needs.
